Stage	Overview
1	The first stage is aimed at absolute beginners. The Core Units introduce basic language like colours and numbers that will be essential for the rest of the course. It also has three simple, topic-based units to spark children's interest.
2	Stage 2 starts to introduce some more varied language and sentence structures, including sentences in the third person. But all in contexts that the children will be familiar with.
3	Stage 3 contains more complex vocabulary and sentence structures. Children will learn to use adjectives to add detail to their sentences, and talk about their hobbies and holidays.
4	Stage 4 gives children a taste of other tenses. Using the perfect and near future tenses, children will talk about what they've seen and done, and what they're going to do in the future.
